ABOUT MANGALAM GROUP

"Established in 1994, Mangalam Group Of Industries is a renowned manufacturer of high-quality mineral products. With our extensive industry experience, we leverage our expertise to manufacture, export, and supply superior-grade minerals. Our products are meticulously processed using premium quality raw material and state-of-the-art technology, under the strict supervision of skilled professionals.

We are continuously expanding our production capacity to meet growing demand. Focusing strongly on expansion, we plan to add additional manufacturing units and increase our monthly production capacity. **Currently, our nine owned manufacturing units collective-Iy produce 10,000 tons per month.**

At Mangalam Group Of Industries, our unwavering dedication to quality, customer satisfaction, and continuous improvement sets us apart as a leading provider of top-notch Mineral products in the industry."

"Our vision is to be a global leader in manufacturing by continuously improving our processes, products, and services, while adhering to sustainable practices that promote a healthier planet."

"Exceeding expectations through superior manufacturing. Delivering exceptional products and services that reflect our commitment to quality, innovation, and reliability."

> Precipitated Calcium Carbonate

Food & Pharma Supplements, Toothpaste, Rubber, Edible Lime, Detergent, Paints, Talcum Powder, Adhesive, Ink, Paper, Foam, etc.

> Activated Calcium Carbonate

PVC Pipes, Masterbatches, Paints, Surface Coatings, etc.

Natural Ground Calcium Carbonate (Coated & Uncoated)

PVC Compound, Plastic Industries, Paints, Paper, White Cement, Wall Putty, etc.

> Imported Calcium Carbonate

Food & Pharma Supplements, Toothpaste, Rubber, Edible Lime, Detergent, Paints, Talcum Powder, Adhesive, Ink, Paper, Foam, etc.

> Kaolin/China Clay

Soaps and Detergents, Electrodes, Paper, Cosmetics, Fertilizers, Paints, Rubber, etc.

> Feldspar Sodium Powder, Feldspar

Potassium Powder

Ceramics, Washing Bars/Soaps, Welding Electrodes, Paints, Fertilizers, etc.

> Quartz/Silica Powder

Glass Manufacturing, Ceramics and Refractories, Foundry Casting, Abrasives and Polishing, Fillers and Extenders, Oil and Gas Industry, etc.

> Dolomite Powder

Detergents, Rubber.

> Mica

Paints, Electrodes, Gypsum Wallboards, Cosmetics.

> Talc Powder

Pharmaceuticals, Cosmetics, Ceramics, etc.

ABOUT FOUNDERS

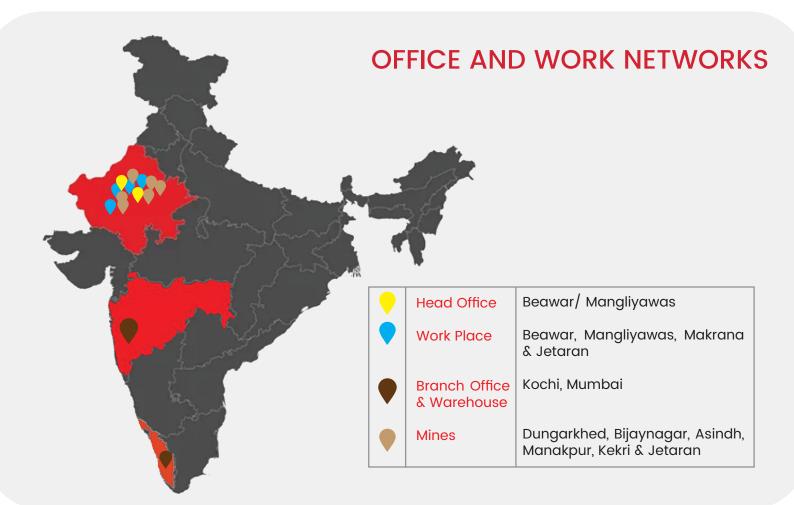

Late Mr. Bhagirath Heda, the esteemed founder of Mangalam Group, was a visionary entrepreneur who began his journey with a single factory in 1994. Throughout his remarkable career, he established and successfully managed ten manufacturing units. With vast industry experience, he was renowned for his aggressive work style and unwavering commitment to excellence.

Mr. Piyush Heda, a visionary leader, carries the esteemed legacy of his predecessors while driving the organisation towards new horizons of growth and expansion. With a dynamic and proactive approach, he embraces the challenges of an ever-evolving business landscape, constantly seeking innovative solutions and pushing the boundaries of excellence.

Mr. Manoj Joshi, a seasoned professional with over 25 years of expertise in the mining and manufacturing of grounded natural calcium carbonate. His extensive experience and deep knowledge of the industry have enabled him to navigate complex challenges with precision and achieve remarkable milestones.

WHY CHOOSE US

Infrastructure

Innovation

Quality Measures

Supply Chain

Flexible Packaging

Our plant's strategic location near Ajmer (Raj.), with easy access to a main highway, ensures convenient transportation and efficient operations. The top-notch shed minimises bird and dust interference, maintaining a clean working environment. We utilise state- of-the-art "SS" machines for manufacturing our high quality powder. These factors combined reflect our commitment to excellence in both infrastructure and product quality.

Our dedicated team of professionals consistently explores new ideas and technologies to enhance our products and services. We strive to improve our processes and products by developing new formulations and implementing more efficient production methods. By prioritising innovation, we stay ahead of the competition and deliver the best solutions to meet our customers' needs.

Our motto **"BEST QUALITY WITH TIMELY SUPPLY"** drives us to deliver exceptional products and services. With a highly qualified technical & QC team and over two decades of experience in Minerals , we ensure the highest standards. Our state-of-the-art laboratory enables us to consistently improve and maintain product quality for customer demand.

We have established a **robust logistics network** that efficiently handles the transportation and distribution of our products. With our extensive reach and strong logistics capabilities, we are committed to meeting the demands of our customers across different countries, ensuring that they receive our high-quality products within the specified time frame.

We provide **flexible packaging** options that meet international standards and can be customised to suit our valuable customers' requirements. We prioritise the utmost care in storage, handling, and loading to ensure the material is protected during transportation. Our goal is to provide efficient and secure packaging solutions that guarantee the safe delivery of our products to our customers.

CSR ACTIVITIES

Health and Safety Policy -

We prioritise health and safety by continually improving our management system. Employees actively contribute to maintaining a safe workplace through regular reviews of procedures and fostering a secure environment.

Solar Power Installed -

Capacity: With an impressive 1 MW solar power capacity, our facility harnesses abundant solar energy.

Daily Generation: Our solar power system produces around 6000 units of clean electricity per day.

Rain Harvest -

By implementing a meticulously designed rainwater harvesting system, we actively collect and store rainwater using specialised tanks. This strategic initiative not only eases the burden on local water sources but also serves as a testament to our commitment to water conservation, sustainability, and responsible resource management.

SUPPORTING LOCAL COMMUNITIES

Establishing a Bus Stand in Mangaliyawas : As part of our commitment to local area development, we have taken a proactive step by creating a dedicated bus stand in Mangaliyawas. This initiative aims to improve transportation facilities for the community.

Supporting Government Schools with Furniture : Recognizing the importance of quality education, we have extended our support to local government schools by providing them with essential furniture, including tables and chairs.
